

## **EXHIBIT B – CONDITIONS OF APPROVAL**

### **Approved Development**

1. This approval authorizes a Minor Use Permit / Coastal Development Permit to allow for the remodel of the existing second and third story decks, with an additional 206 square feet of new decking. The project also involves an interior remodel to the existing 2,486 square foot three story single family residence. The project will result in the disturbance of approximately 200 square feet on a 5,227 square-foot parcel. The project requires the purchase of 13 square feet of Transfer of Development Credits (TDCs).
2. Maximum height shall not exceed 28 feet (as measured from average natural grade).

### **Conditions required to be completed at the time of application for construction permits**

3. **At the time of application for construction permits**, all project conditions shall be clearly printed on the plans and construction documents shall be consistent with the currently adopted California Codes.
4. **At the time of application for construction permits**, all plans and engineering drawings shall be prepared by a California Licensed Architect of Record or Engineer for all design portions of the project that do not meet “conventional construction” as defined by the current building code.

### ***Site Development***

5. **At the time of application for construction permits**, plans submitted shall show all development consistent with the approved site plan, floor plan, and architectural elevations.
6. **At the time of application for construction permits**, the applicant shall provide details on any proposed exterior lighting, if applicable. The details shall include the height, location, and intensity of all exterior lighting. All lighting fixtures shall be shielded so that neither the lamp nor the related reflector interior surface is visible from adjacent properties. Light hoods shall be dark colored.

### ***Fire Safety***

7. **At the time of application for construction permits**, all plans submitted to the Department of Planning and Building shall meet the fire and life safety requirements of the California Fire Code. Requirements shall include, but not be limited to those outlined in the Fire Safety Plan, as prepared by the Cambria CSD Fire Department for this proposed project, dated April 27, 2016.

### ***Cambria Community Services District***

8. **At the time of application for construction permits**, the applicant shall comply with the conditions from the Cambria Community Services District, including but not limited to those on the Confirmation of Water & Sewer Availability for Remodel or Transfer of Existing Active Service, dated May 17, 2016 from the CCSD.

### ***Storm Water Control Plan***

9. **At the time of application for construction permits**, the applicant shall demonstrate whether the project is subject to the LUO Section for Storm Water Management.

Applicable projects shall submit a Storm Water Control Plan (SWCP) prepared by an appropriately licensed professional to the County for review and approval. The SWCP shall incorporate appropriate BMP's, shall demonstrate compliance with Storm Water Quality Standards and shall include a preliminary drainage plan, a preliminary erosion and sedimentation plan. The applicant shall submit complete drainage calculations for review and approval.

***Grading, Drainage, Sedimentation and Erosion Control***

10. **At the time of application for construction permits**, the applicant shall submit a drainage plan for review and approval by the County Department of Public Works. Drainage plans shall be designed to retain water on-site and encourage infiltration when feasible. Natural drainage patterns should be retained and remediated if retention is infeasible on-site.
11. **At the time of application for construction permits**, the applicant shall submit a complete erosion and sedimentation control plan for review and approval by the County Department of Public Works.
12. If grading is to occur between October 15 and April 15, an erosion and sedimentation control plan shall be submitted pursuant to Coastal Zone Land Use Ordinance Section 23.05.036.

**Conditions to be completed prior to issuance of a construction permit**

***Transfer of Development Credits (TDCs)***

13. **Prior to issuance of a construction permit**, the applicant shall provide written verification from the Land Conservancy of San Luis Obispo County that 13 square feet of Transfer of Development Credits has been transferred from a parcel within a special project area to the subject property.

***Fees***

14. **Prior to issuance of a construction permit**, the applicant shall pay all applicable school and public facilities fees.

**Conditions to be completed during project construction**

***Drainage, Sedimentation and Erosion Control***

15. All runoff from impervious surfaces such as roofs, driveways, walks, patios, decks, shall be collected and detained on-site, or passed on through an effective erosion control device or drainage system approved by the County Engineer.
16. Permanent erosion control devices shall be installed prior to or concurrently with on-site grading activities.
17. Grading, filling or site disturbance of existing soil and vegetation shall be limited to the minimum areas necessary.
18. Stockpiles and other disturbed soils shall be protected from rain and erosion by plastic sheets or other covering.

19. All areas disturbed by construction activities shall be revegetated with temporary or permanent erosion control devices in place.

***Archaeology***

20. In the event archaeological resources are unearthed or discovered during any construction activities, the following standards apply:
  - A. Construction activities shall cease and the Environmental Coordinator and Planning Department shall be notified so that the extent and location of discovered materials may be recorded by a qualified archaeologist, and disposition of artifacts may be accomplished in accordance with state and federal law.
  - B. In the event archaeological resources are found to include human remains, or in any other case where human remains are discovered during construction, the County Coroner is to be notified in addition to the Planning Department and Environmental Coordinator so that proper disposition may be accomplished.

**Conditions to be completed prior to occupancy or final building inspection**

***Landscaping***

21. All areas of the site disturbed by project construction shall be re-vegetated with native, drought and fire resistant species that are compatible with the habitat values of the surrounding forest. Non-native, invasive, fire prone, and water intensive (i.e. turf grass) landscaping shall be prohibited on the entire site.

***Fire Safety***

22. **Prior to occupancy or final inspection**, whichever occurs first, the applicant shall obtain final inspection and approval from Cambria Community Services District Fire Department of all required fire/life safety measures.

***Cambria Community Services District***

23. **Prior to occupancy or final inspection**, whichever occurs first, the applicant shall submit to the Department of Planning and Building a water and sewer service condition compliance letter from the Cambria Community Services District.

***Building Review***

24. **Prior to occupancy of any structure associated with this approval**, the applicant shall contact the Department of Planning and Building to have the site inspected for compliance with the conditions of this approval.

**On-going conditions of approval (valid for the life of the project)**

25. This land use permit is valid for a period of 24 months from its effective date unless time extensions are granted pursuant to Land Use Ordinance Section 23.02.050 or the land use permit is considered vested. Time extensions must be requested in writing prior to the expiration date of the land use permit pursuant to Land Use Ordinance Section 23.02.050. This land use permit is considered to be vested once a construction permit has been issued and substantial site work has been completed. Substantial site work is defined by Land Use Ordinance Section 23.02.042 as site work progressed beyond

grading and completion of structural foundations; and construction is occurring above grade.

26. All conditions of this approval shall be strictly adhered to, within the time frames specified, and in an on-going manner for the life of the project. Failure to comply with these conditions of approval may result in an immediate enforcement action by the Department of Planning and Building. If it is determined that violation(s) of these conditions of approval have occurred, or are occurring, this approval may be revoked pursuant to Section 23.10.160 of the Land Use Ordinance.
